CREATE PROCESS SETS, PROCESSES, SUB PROCESSES AND TASKS

Before You Begin

Ensure that you have read and understood the resources within the **Configure Process Sets, Processes and Sub Processes** and **Interpret Tasks/ Task Properties** Sub Processes prior to completing this exercise.

If there is a Knowledge Assessment for this Task, it should also be completed prior to beginning this exercise.

Reference Information

Within this training program, there are six examples that can be used to complete your learning exercises. These examples are all based on a Comply with Occupational Health and Safety Process, however the Sub Processes differ. In order for subsequent exercises to work properly, you must select the same Sub Process name's exercise. These include:

[Comply with Chemical, Biological and Hazardous Substances Policies](#)

[Comply with Confined Space Policies](#)

[Comply with Fire and Explosion Policies](#)

[Comply with First Aid Policies](#)

[Comply with Noise Exposure Policies](#)

[Comply with Personal Protective Equipment Policies](#)

Click on one of the above hyperlinks to access the corresponding Learning Exercise.
