

### INTERPRET DERIVED PROCESSES

#### Before You Begin

Ensure that you have read and understood the resources within the **Interpret Derived Processes** Sub Process before completing this exercise.

If there is a Knowledge Assessment for this Task, it should also be completed prior to beginning this exercise.

#### Learning Exercise

Ensure you have completed [Create Process Sets, Processes, Sub Processes and Tasks Learning Exercises](#) in order to complete the following step.

- 1 Create a Derived Process based on the **Comply with Company Policies** Process. Name this new process **<Your Company Name> Policies**.
- 2 Hide the 2<sup>nd</sup> Task in the Sub Process.
- 3 Add a Sub Process to the Derived Process.  
*Use your imagination – something having to do with Comply with Company Policies ...*
- 4 Create a Derived Process from your Derived Process. Name this process **<Field Policies>**.
- 5 Break the inheritance between the first derived process and **Comply with Company Policies** Process.

#### Feedback & Evaluation

When you have completed this exercise, request a Capability Assessment from your supervisor. Your supervisor will contact you regarding scheduling of the Capability Assessment.
